### The new Universal Holding & Anchoring System for the Future.

The EVO System is modular and upgradable. The EVO System is integrated with Car-O-Liner's Data and Software and supports the complete vehicle repair process with Multimedia, Instructions and Data. Our revolutionary concept – The EVO System will help you to maximize your business performance.

*The purpose of EVO 1 is to give additional support to the standard clamp set-up when making extra hard pulls.. Standard set up is proposed in the Vision System.*
